Library Journal Best Reference 2009

"Written in a clear and accessible style that would suit the needs of journalists and scholars alike, this encyclopedia is highly recommended for large news organizations and all schools of journalism." —Starred Review, Library Journal

Journalism permeates our lives and shapes our thoughts in ways that we've long taken for granted. Whether it's National Public Radio in the morning or the lead story on the Today show, the morning newspaper headlines, up-to-the-minute Internet news, grocery store tabloids, Time magazine in our mailbox, or the nightly news on television, journalism is woven throughout our day. The six-volume Encyclopedia of Journalism will cover all significant dimensions of journalism including: print, broadcast, and Internet journalism; U.S. and international perspectives; and history, technology, legal issues and court cases, ownership, and economics. The set will contain approximately 3,000 pages in all and approximately 350 signed entries from scholars, experts, and journalists, under the direction of leading editor Christopher Sterling of The George Washington University.
